## Design

### Specification

- ✓ Length 1220 mm
- ✓ Wing Span 1500 mm
- ✓ Wing Area 66.75dm<sup>2</sup>
- ✓ Weight 195.5 g
- ✓ Aspect Ratio 3.41

- ◆ Tapar Carbon adopted as beams
- ◆ Large wing

## Production

- 
- Concept design
  - Structure design
  - Preparation some parts
  - Production
  - Test flight

## Safety

- Designed to fly slowly by large wing
- The end of collecting bar is rounded

## Concept

- High Stability
- Low Speed (2 m/s)
